

Best Sourcing System

Trigold has been voted Best Sourcing System for the second consecutive year

The sourcing system of choice for most brokers, Trigold leads its market comfortably. But it doesn't take its position for granted.

A constant innovator, Trigold continually looks to improve its service to brokers. This includes development in sourcing of specialist products, including adverse credit lending. And the firm is looking at various opportunities to provide effective sourcing capabilities in new markets like secured lending. Plus its e-trading centre now has a seamless link to 100 application forms and integration with over 50 lenders. The centre saves brokers time in form completion with enhanced prepopulation facilities, and provides a full and compliant audit trail.

Its success was cemented last September when it celebrated a second year in the *Sunday Times* Microsoft Tech Track 100 for Britain's fastest growing technology companies.

Web address: trigold.co.uk
